

SOME STATEMENTS REGARDING NEW THEORY

Followers of Cooper and His Novel Ideas Give Reason for Their Belief in Him.

With a theory that human health is dependent on the stomach and with a medicine which he says proves this theory, L. T. Cooper, a comparatively young man, has built up an immense following during the past year.

Cooper has visited most of the leading cities of the country, and in each city has aroused a storm of discussion about his beliefs and his medicines. Wherever he has gone, people have called upon him by tens of thousands, and his preparation has sold in immense quantities.

The sale of this medicine has now spread over the entire country, and is growing enormously each day. In view of this, the following statements from two of the great number of followers which he now has, are of general interest.

Mrs. Agnes Vigenhouser, of 942 St. Louis Avenue, Chicago, has the following to say on the subject of the Cooper preparations: "For more than ten years I was broken down in health. I could not sleep and I was very nervous. Gradually I began to lose my memory, until I could not remember things from one day to another. I had severe pains and cramps in my body, and I would at times see dark spots before my eyes. I was unable to do any work whatever, as my strength was failing. I had no appetite, nor could I take any medicine. "I had about given up hope of ever being well again when I read of Mr.

Cooper's remedies. I decided to give them a trial, and I began to feel better at once. After taking the medicine for two weeks I can say that I am a new woman. I can eat with enjoyment, the pains in my body have left me, and I am stronger than I have been for years.

"I cannot say enough for Mr. Cooper's remedies. They are wonderful, for they have done everything I claimed for them in my case."

Another statement by Mr. W. B. Stewart, 109 W. Madison St., Chicago, is as follows: "I have had stomach trouble for years, and anyone who is afflicted this way knows what an awful distressed feeling it causes. Many a time I have felt that I would give most any price to be cured. It was by accident that I heard of this man Cooper's remedies. I immediately made up my mind to buy a treatment of him. I used it for about two weeks, and it is impossible to tell how much good it has done me. I feel altogether different. I have more life and energy than I have had for years. This medicine certainly does stimulate and strengthen the whole system. Tired feeling and weak condition of the stomach has entirely passed away. I feel well again."

We sell Cooper's celebrated medicines which have made this wonderful record in all parts of the country. —Pendleton Drug Co.

NEW LAND RULES

TERM OF RESIDENCE ON
CAREY TRACTS CUT DOWN

State Land Board Adopts New Rules
Regulating Settlement and Final
Proofs on Irrigated Lands—Only
Three Months' Actual Residence Is
Now Required—Final Payment
May Now Be Deferred for A Year
After Patent Is Issued.

Changes of vital importance to settlers on irrigated lands under the Carey act have been made by the state land board. Rules drawn some time ago by State Engineer Lewis, and submitted to the board for adoption, have been modified in important details that will make them more favorable to the settler, and aid in attracting homeseekers to irrigated lands in this state.

The most important revision is that of the rule prescribing the requirements for final proof and patent. The original rule that would have required the settler to reside on the land as in the homestead law is changed so that the settler need only prove an actual residence of three months on the land. But he must also prove that he has one-eighth of the total irrigable area under actual cultivation.

The settler will be required to show three months' actual residence, one-eighth under cultivation, and prove up within three years, but he may prove up at any time after three months' residence, at his option. On final proof he receives from the land board a certificate which, on release of the construction company's loan, entitles him to a deed. He may transfer the land at any time after receiving his certificate, and give a warranty deed to which title will be finally confirmed by the patent.

Final payment and issuance of patent may be deferred by the settler if he desires for a year after he has proved up and received his certificate, which privilege will be a convenience to many who may have invested all their funds in improvements and have not yet realized from a crop sufficient money to pay the charges.

At an informal hearing given yesterday at Salem by two members of the state land board, Governor Chamberlain and Secretary Benson, these and other changes were agreed upon after an exhaustive showing made by J. O. Stearns and F. S. Stanley of the Deschutes Irrigation & Power company, who submitted evidence to prove that the rules originally proposed by the state engineer would have a disastrous result upon the efforts that are being made to bring settlers into the state and populate the irrigated lands under the Carey act.

The land board will have a meeting next Tuesday, when the revised rules will probably be adopted and immediately go into effect.

INDIANS WANT MORE LAND.

Meeting of Tribesmen on the Quinault Reservation to Be Held.

For the first time in over 100 years there will be held at Taholah, on the Quinault Indian reservation in western Washington, a council of all the Indians of the northwest included in the original treaty with the government.

At the request of Taholah, aged chief of the Quinault, Quillute and Queets tribes, messengers have been dispatched over the northwest for the

purpose of bringing the Indians to the council.

The purpose of this meeting is to send a delegation to Washington to memorialize congress to allow them 160 acres of land instead of 80 acres. The laws are so that an Indian can take but 80 acres of land and this must be agricultural or grazing land and they want to have the law changed to allow each male adult over 21 years of age 160 acres, 80 acres being timber land.

Over 400 Indians are to attend the meeting and the proceedings at the council will be in line with the usages and customs of the ancient tribes in the early days of warfare. Chief Taholah made a trip to Washington several months ago to visit the great white father, but he was not successful in his mission. The Indians have never been satisfied with their allotments and it has taken considerable trouble to get them to take any grants. Their obstinacy has been the cause of the work being delayed so long.

DESIGNED STATE CAPITOL.

Portland Architect Passes Away After Extended Illness.

Portland, Nov. 22.—Justin F. Krumbeln, a well known architect of Portland, died yesterday afternoon. Death was due to stomach trouble, with which he had been alling for about three months. The funeral is to take place from his late residence, but the time has not yet been set. The remains are to be cremated, at his request.

Mr. Krumbeln was a native of Germany and 60 years of age. When quite young he came to the United States and to Portland in 1872. He was married in 1883 to Miss Criselle Gantenbein, a sister of Judge Gantenbein, who survives him. He leaves two grown sons—Herbert and Waldemar A., who reside in Portland.

Among the prominent buildings designed by Mr. Krumbeln are the state capitol at Salem, St. Vincent's hospital, A. O. U. W. temple, Hotel Per-

A Favorite Bowel-Medicine With Men

This new, improved laxative has become extremely popular with men everywhere. It works so gently and effectively that it never fails to bring relief, and at the same time never interferes with business.

Rexall
Orderlies

have none of the faults of the other laxatives on the market. They are entirely new and better. Positively do not gripe or cause nausea. Quickly and permanently cure constipation and sluggish liver. Are not followed by any constipative reaction. Regulate the bowels perfectly. Try them and you will understand what an improvement they are over other remedies.

Pleasant, vanilla flavored tablets.

Small Box (12 tablets) 10c.
Large Box (36 tablets) 25c.

The Rexall Store

The Story of Rexall

REX means "king," and the combination makes Rexall "king of all."

We have proven time and time again that Rexall Remedies are kings above all others. For more than two years an expert traveler all over the world in search of extraordinary remedies. Whenever he heard of a wonderful cure of any nature he did not rest until he personally could see the effect of the prescription used. Where he found the remedy perfect he purchased the prescription, but it was never used as a Rexall remedy until the properties had been thoroughly analyzed by the chemists and physicians of the United Drug Company.

CREMATE SICK HOGS

HERD OF 250 FOUND
NEAR NORTH YAKIMA

Fifty Head of Fat Hogs Infected With
Lumpy Jaw and Tuberculosis Killed
and Cremated—Others Will Be
Held in Quarantine for 60 Days,
For Another Examination.

The Yakima Republic says of the discovery of a lot of diseased hogs near that city:

Diseased hogs have been found on a ranch just south of the city by State Dairy and Food Commissioner L. J. Davies and his deputy, Will H. Adams.

There are some 250 hogs in the band and every diseased animal will be killed and incinerated, and the balance of the band quarantined for 60 days to demonstrate whether the disease has spread. Lumpy jaw and tuberculosis are the diseases found.

The state veterinarian is ill, but his deputy, Dr. Weing, is expected from Spokane to give his advice in connection with the examination of the hogs.

Dr. Ernest L. Higgins, government sheep inspector for this district, today gave his volunteer services to the state officers and this morning four of the hogs were killed. The lungs of one were found to be in a frightful condition from tuberculosis. Others were suffering in various ways from other troubles, but the stomach and intestines showed no infection.

Slaughter Fifty Animals.

The plans of the state and federal officers include the slaughtering and examination of 50 of the animals this afternoon and it was expected on the basis of the examination already made that this would remove practically all of the animals showing infection at this time. Kerosene in sufficient quantities had been ordered for the cremation of the bodies of the slaughtered animals.

Arrangements have been made by the inspectors for the erection of new sheds and pens in another part of the ranch and the old sheds and pens will be thoroughly fumigated and disinfected.

At the close of the 60 days' quarantine the state officers will return here and another examination, in conjunction with veterinary experts will be made. The animals are the property of a Chinese and are just outside the limits of the city to the south.

The World's Sunday School convention has now become the World's Sunday School association and will be actively world-wide in its operations as it is in name.

COMING TO PENDLETON.

Streeter-Bryan Company Closed Engagement at Baker.

The Baker City Democrat says of the departure of the Streeter-Bryan company for Pendleton, where they will open "The Oregon" next Sunday night with a first-class attraction:

The Streeter-Bryan company closed their 10 weeks' engagement in this city last night, playing their last night, as usual, to an overflowing house, after which the company left for Pendleton, where Mr. Streeter has leased a house for a term of five years.

The company will remain at Pendleton until some time in January, when Mr. Streeter will return to this city and open the doors of his new theater, the Oregon. People were sorry to see this more than excellent company leave, even if it is only for a time, for their excellence as artists is far beyond the ordinary, and being ladies and gentlemen one and all, they have made many lifelong friends in our midst who will be more than glad to welcome their return.

The western in which Miss Bryan is held in this city was fully exemplified by the great number of presents she received, many of which were very valuable and were given by both old and young as a testimonial of their appreciation of her popularity, not only as an actress, but as a lady of merit and worth.

The little ones will miss her, for on Saturday afternoons it was their universal custom to attend her recitations where each and every one was sure of some token of special courtesy. That the company will return and have a play house of its own is welcome news to the playgoers of this city.

FOR FIREMEN'S ELECTION.

Vaughan and Siebert Nominated for Chief—Election December 2.

As the time for the annual firemen's election draws near considerable quiet interest in that event is being aroused among those belonging to the different volunteer companies of the city.

Nearly all of the companies have now nominated their candidates for the positions of chief, first assistant and second assistant.

For chief the two candidates thus far are J. L. Vaughan, present incumbent, and A. D. Siebert, the foundryman. For first assistant Lee D. Drake and Alex. Manning have been nominated, while Pete Anderson is the only man in the field for second assistant.

The firemen's election occurs on the same day as the city election, December 2.

The World's Sunday School convention, held in the city of Rome, May 18-23, 1907, was attended by about 1300 registered delegates, representing 27 nationalities and about 40 religious creeds. About 500 of the delegates were from North America.
